

Eoin McGrath Developer & Founder

available for contract work mid-june 2026

✉ hi@eoinmcgrath.com [in linkedin.com/in/eoinmcg](https://www.linkedin.com/in/eoinmcg) github.com/eoinmcg

Co-founded, scaled, and sold a profitable SaaS business (Beacon.by) - serving 70,000+ users and 200,000+ generated documents.

Brings rare founder-level perspective to engineering: architecting systems, optimising infrastructure costs, and building products that users actually keep using.

Equally comfortable deep in a backend or crafting polished interfaces.

Skills

JavaScript	Linux	RDBMS	HTML5	React	TypeScript
Node.js	Git	Laravel	CSS	Nuxt	Writing

Recent Activity 2024 - 2026

Contract work (available from mid-June 2026) Staying sharp through competitions, open source, and published writing:

- LittleJS Jam: [First place](#). I have also contributed to the LittleJS framework
- Dev.to challenge: [First place](#), build with React, typescript and R3F.
- AI Course: [Certificate](#)
- Article: Vanilla JS game: [Published on SitePoint](#)
- Tutorial: Make a mobile first JS game: [View](#)
- Course on Web Accessibility: [Certificate](#)

Experience

Beacon.by, CTO and co-founder

📅 2013 - 2024

Co-founded a bootstrapped SaaS platform, grew it to 70,000+ users, and sold the business in early 2024.

- **200,000+ documents created.** Built a drag-and-drop Lead Magnet editor in React, publishable to both web and PDF.
- Engineered a full landing page builder and resource library with React.
- Architected and maintained the entire Laravel / MySQL backend through the full growth lifecycle.
- **Cost impact:** Reduced monthly infrastructure costs by 40% by replacing a third-party SSL service with an in-house provisioning system for tens of

thousands of custom-domain certs.

- Owned technical support and contributed heavily to user facing documentation.

Starfish Web Consulting, CTO and co-founder

 **2005 - 2013**

- Built an in-house CMS with a focus on security and WCAG accessibility standards.
- Delivered bespoke web solutions for businesses, government agencies, and NGOs.

Bluelink.net, Web developer

 **2003 - 2004**

- Administered and redesigned Bluelink's web portal; led migration to web standards.

Oceanfree.net, Technology Analyst

 **2000 - 2001**

- Delivered dynamic news and weather feeds to Ireland's first free ISP.

Education

BSc Information Management, 2.1

Queen's University Belfast
